PRIVACY FENCE
in Weathered Aspen and White Trim

Welcome to the NVP 2021 Product Guide

NVP is pleased to provide our updated 2021 Product Guide. This guide has been formatted to help you find the fencing material and resources you are looking. Inside you will also find announcements and new products being offered for the coming year. We look forward to providing you the best quality material and service in the industry.

The 2021 Product Guide contains all the standard profiles, colors and lengths that NVP manufactures. If you do not see what you are looking for, please contact your sales representative.

SPECIAL ORDER DETAILS:

Special orders are considered to be any profile, color or length not included in the Product Guide or found on a standard pricing sheet. NVP will work with you to meet your custom size, color, or profile needs. These items may be subject to minimum order requirements and extended lead times. Contact your sales representative for additional information, pricing, and timing for these products.

Come visit us online!

Coast to Coast

New Plant

NEW PLANT, DOVER, DE

We are pleased to announce that our Dover, Delaware plant is open for business! During these last 12 months, while the fence and rail industry has seen unprecedented growth and demand, our team has been working through setbacks, construction delays, and COVID-19 detained equipment to get this plant online. This new location will allow us to better meet and exceed your production needs all across the country with additional capacity as we begin this new year. We look forward to helping you grow with us as we expand with you in the years to come.

Announcements

INTRODUCING AN ALL-NEW RAIL SYSTEM.

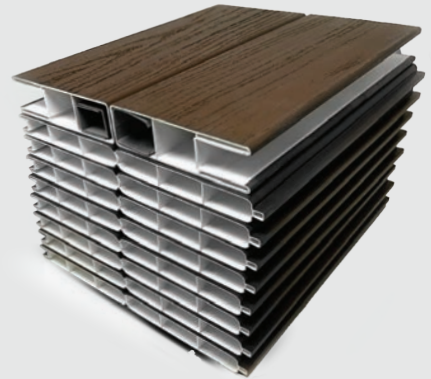

Look for the 'Railing System' logo on the following pages for profiles that apply.

TIMBERLAND SPECIAL ORDERS

We now sell fence by the section in all our Timberland Colors to make special orders easier for you!

Weathered Aspen Inlay and Walnut Trim

Fence Section Program

WHAT'S INCLUDED AND HOW DOES IT WORK?

HERE IS WHAT IS INCLUDED IN A SECTION OF FENCE:

- Top and bottom rails
- Tongue and groove panels
- U-channels
- A bottom rail inset – For dark colors a top rail inset is included as well
- Panel insets for dark colors

METAL STIFFENERS

(Number of stiffeners will vary based on color)

STEP 1.

Provide NVP with a list of materials needed for the job. Include what posts are needed (lines, ends, corners, blanks), number sections needed (6ft or 8ft on center), and any gates and extra hardware.

STEP 2.

We take care of the rest. The fence will be delivered with posts, sections, and gates packaged and wrapped individually. Details on what is included with a gate kit is listed on page 86.

FOR MORE INFORMATION CONTACT YOUR LOCAL SALES REPS.

This section of the product handbook provides specifications for a variety of vinyl fence accessories available through NVP, including:

- **Caps**
- **Brackets and mounts**
- **Stiffeners**
- **Gate Hardware**
- **Gate kits**
- **Finish Accessories**

NVP offers our standard vinyl accessories in white and tan. Additional colors may be available, but are non-standard products and may need to be ordered from the manufacturer.

NVP has connections with a vast network of fence accessory, post caps and hardware manufacturers. Upon request, NVP can provide pricing and availability for anything not found in this guide. Contact your NVP sales representative, or our inside sales team (orders@nvpfence.com) for more information. NVP ships all accessories in full-box quantities.

**Pricing and availability are subject to change without notice.*

Gate-In-A-Box

BUILD INSTRUCTIONS

WHAT'S IN THE BOX:

- Tongue and Groove (T&G) Pickets
- Top and Bottom Vinyl Pocket Rails
- Vinyl Uprights – Pre-routed for easy assembly
- Aluminum Tubing
- Self Tapping Screws
- Instruction Sheet
- Aluminum Corners (Standard 90 degrees, other degree slopes are avail.)

(FOLLOW THE STEP NUMBERS ON THE SCHEMATIC DRAWING)

STEP 1

Start with the gate upright: a rectangular vinyl profile with the aluminum tubing inside and the gate corners inserted and pre-attached.

STEP 2

Slide the top and bottom vinyl pocket rails (and the aluminum tubing inside them) over the gate corners from Step 1's gate upright. Make sure the pocket rail slides all the way into the routed opening and tubing slides all the way over the gate corner.

STEP 3

Slide the tongue and groove (T&G) pickets between the two pocket rails, tight to the gate upright.

STEP 4

Take the remaining gate upright and slide it into the top and bottom pocket rails, similar to step 1. Make sure the pocket rails and the T&G pickets fit all the way into the routed opening in the gate upright. The T&G Pickets should slide a small amount into the gate upright slot to create a clean finish.

**Before completing Step 5, it's recommended to utilize clamps or nylon ratchet straps along the width of the gate to make sure the components are tight together and the gate is square.*

STEP 5, 6, 7, AND 8

Utilize the provided self tapping screws to screw the pocket rail, gate corner, and tubing all together. Place the fasteners in a location where they will grab all three components (pocket rail, gate corner, and tubing).

GENERAL NOTES:

Gates are made to be 2" shorter than the rough opening (i.e. a 48" opening from inside gate post to inside gate post will come ready to assemble at 46")

Gates can be cut down to fit smaller widths by cutting the top and bottom rail as well as the top and bottom aluminum tubing. The vinyl T&G pickets can also be 'ripped' on a table saw to fit the opening.

To do this, cut the vinyl pocket rail to 3.5" shorter than desired gate width and the aluminum top and bottom tubing to 3.25" shorter than desired gate width.

Example – for a 34" wide gate (that would fit a 36" opening), the vinyl top and bottom pocket rails would be cut to 30.5" long. The aluminum tube top and bottom inserts would be cut to 30.75" long.
